" 37	40 "	5 "	4 "	11.85
" 38	63 "	5½ "	4½ "	14.05

The Simpson Patent Adjustable Parallel Vises can be instantly opened or closed the full length, without the use of the screw. By slightly raising the front jaw, the screw and nut are disengaged, on removing the hand, the screw and nut again become engaged and a single turn of the screw gives the required grip.
